ADDRESS DELIVERED BY

HIS HONOR, MAYOR BARRY.

At the Joint Convention of the City Councils, Jan. 3, 1911

GENTLEMEN, MEMBERS OF THE CITY COUNCILS:

We are assembled here today in obedience to the City Charter to enter upon the performance of the duties for which we have been selected by vote of the people.

To the fullfilment of this public trust we must bring our best thought and untiring effort; and in the advancement of the community we must at all times safeguard the interest we have this day sworn to protect. All thought of individual favor must be laid aside, for in assuming public duties we have taken on a representative personality and must labor for the common cause of all.

Great responsibilities devolve upon us in the conduct of municipal affairs. The welfare and finances of the people have been intrusted to our care, and in protecting them we must devote our time and studies, however inconvenient it be, to the end that our administration may be pointed to as one having as its sole object the interests of the city we in honor must protect.

Progress should be our watchword as public servants, but it must be tempered with the spirit of fairness and economy. Criticism will naturally flow from our actions, diverse opinions arise in our deliberations, but imbued solely with the spirit

of common good we can lay down our burdens at the end of the term confident that we have acted fearlessly in the cause we believe to be right.

Honesty of purpose and purity of action must guide our every deed, which, devoted to the interest of the city, cannot but deserve the commendation of the people we represent.

Let us then approach our duties in the broad spirit of democracy, having continually before us the thought that in all things the will of the people must be supreme.

FINANCIAL STATEMENT, DEC. 31, 1910.

Liabilities:		
Bonded Debt	$893,508.91	
Time Notes	56,500.00	
Demand Notes	76,845.10	
		$1,026.854.01
Resources:		
Uncollected taxes, 1907	$5,861.34	
Uncollected taxes, 1908	7,266.22	
Uncollected taxes, 1909	9,390.16	
Uncolledtec taxes, 1910	62,227.24	
Sinking fund	331,246.39	
Taxes purchased	2,327.82	
Cash on hand	4,663.35	
		$422,982.52
Total liabilities	$1,026,854.01	
Total resources	422,982.52	
Net Debt		$603,871.49
Net Debt Dec. 31, 1910	603,871.49	
Net Debt Dec. 31, 1909	583,491.38	
Increase in Debt		$20,380.11

STREET LIGHTS.

The city seems well covered by arc and incandescent lights, from which general satisfaction arises. New localities are continually demanding additions, the granting of which should be guided by necessity and economy.

Our main thoroughfare upon which the greatest traffic occurs is in spots poorly illuminated and I recommend that immediate steps be taken to provide a remedy therefor. Shade trees in many instances obstruct the light and I strongly endorse the recommendation of my predecessor that judicious pruning of branches be made that this may be reduced.

Within the next two years you will be called upon to receive estimates and to contract for the lighting of the city streets. In this important work all personal, social and political considerations must give way to the common good and the executed agreement based solely on the best interests of the whole people whom you represent. Free from departmental control we have here one of the few remaining marks of pure democracy, and in pledging the city to a contract you must consider yourselves directors of a body composed of all citizens to whom alone you are responsible. See to it that in this important decision the city's cause is surrounded with all necessary safeguards, and the final arrangement the best that honest business efforts can obtain.

FIRE DEPARTMENT.

In the hour of security too little appreciation is had of the agencies that protect our lives and property. The cost of maintainance of the fire department over-shadows in some minds the benefits obtained. Its efficiency, however, is a matter of daily observance; and long freedom for great disaster, low rates of insurance, and the annual saving in property to tax payers are matters that connot be overlooked, expressing more

potently than words of tongue and pen the beneficial effect of our fire forces. An inspection of the various houses of this department discloses well appointed and serviceable equipment, and a corps of men that in ability and discipline rank second to none in cities of like size in New England.

In the new fire ordinances which a wise city government has enacted additional powers are conferred upon this department to safeguard the lives of inmates and employes of buildings and factories. Granted at the express wish of the commission we trust every advantage will be taken thereof. I suggest that all haste be made in equipping every such building with a means of escape from a danger that has thus far been so signally adverted.

POLICE DEPARTMENT.

This department under the supervision of a state-appointed board is a credit to the city. The personnel of the officers, their appearance and discipline are matters of general commendation, and the force as now constituted is the best in the city's history. The practice of selecting young, vigorous men is praiseworthy, and police reports show that the commission is giving good returns for the money expended.

TAXATION.

The advancement and standing of a city depend upon its ability to meet its obligations within limits that will attract outside investors and keep those that are within. As a municipality increases in size and influence new improvements naturally arise, the cost of which must be borne by the taxation of individuals and their property. To the assessors is entrusted the duty of providing for the finances to conduct the city's affairs. Much has been said of unfair, discriminating values, and the high rate of taxes in the city of Nashua, all of which effects the city as an industrial center. I should recommend

that the assessors give this matter their most serious thought and attention, with a view to remedying the evil apparently existing.

Within the past decade there has been a large increase of male adults in our city which is not apparent in the number of assessable polls. This may be due to the influx of foreigners with whom the board is not conversant. This matter should be carefully attended to, and if need be, additional agents employed to see that all pay their just share for the advantages the city affords.

In connection with the collection of taxes I recommend for your earnest consideration the enactment of a provision by which the payment of taxes at an early date may be made at a discount. In this way money will be brought into the treasury from time to time giving our taxpayers the advantage of the interest now paid on loans necessary to carry on the city's business.

PARKS.

The work of the park commission in adopting methods to exterminate the moth pest has been retarded and in many instances nullified by the wilful neglect of private tree owners. A careful watch over private groves and orchards and immediate notice to the commission will stay the progress of destruction before much damage arises. In protecting the trees which beautify our streets and highways the city should receive the diligent cooperation of land-owners, and the aid of all its people.

Our commons, devoted in the main to the young, afford a means of healthful exercise that builds the coming generation into strong men and women. The establishing of outdoor facilities, by creating ball grounds and skating rinks, should be extended along other lines within reasonable limits that the youth of Nashua may have ample playground for exercise and diversion.

Greeley park, so bountifully remembered by the gift of our fellow citizen, John E. Cotton, is being developed into a place of beauty, and we trust that his effort for the extension of the park system will be an incentive to other public-spirited citizens.

PUBLIC HEALTH.

Within its limited means this board is performing good work. Danger of a quiet but insidious character lurks in many quarters, and general report has it that the members of this board spare neither time nor pains in ferreting and stamping it out before pestilence arises. The establishing of public urinals in different parts of the city is a much needed want, and in keeping with progress must be considered.

SCHOOLS.

No more potent factor for the uplift of the city exists than our schools. The training of the young should be paramount to all other affairs, and the money expended in giving the children education and righteous education cannot be too generously supplied.

Within the last school year manual training and sewing have been introduced in several of the upper grades in our grammar schools, and the results attendant thereon are most gratifying. Pupils enter into these courses with eagerness and vim, a good sign for the boy and girl whom lack of finances deprive of extended education. The teaching of arts and crafts gives an opening to pupils mechanically inclined, and the course should from time to time be extended to the high school and other grades Neighboring cities are rapidly going forward in this practical work, which can in no way be looked upon as a fad or fancy.

CITY LIBRARY.

This institution, a school for all classes and walks in life, is performing a work that is silent and effective. Good wholesome reading material, whether for study or diversion, is a matter of great importance to our citizens, and in its selection on the trustees should be and are governed by justice and integrity. The library is well patronized, and is a source of education and advancement to many that might otherwise be deprived of opportunities for learning.

PUBLIC WORKS.

Within the jurisdiction of this board lie matters of most vital concern. The first impression gained of a municipality is most likely to be a lasting one, and as streets and highways appear at first sight so will be taken the city as a whole. Well kept roads are matters not only of cleanliness, but as a financial investment are of the greatest value to the community. All sections of a city cannot within reasonable expense be provided for at once. The policy of former boards in caring for the highways and sewers in various localities as necessity and finances permit is a just and equitable one. Our streets are well cared for and speak volumes for the work of this department.

In the absence of a betterment law the public spirit of abuttors must be invoked that our sidewalks may be kept in proper condition. This is a matter that our legislative delegation may well look into. I recommend the laying of block paving as the most serviceable and economical surface for streets where traffic requires.

The purchase of land and buildings on East Hollis street will make an ideal headquarters for city supplies and the installing of an incinerator solve in a great measure the question of waste and rubbish.

The new bridge over the Merrimack river between Nashua and Hudson is well near completion, and in its beauty and stability will remain for years as a monument to the retiring board.

The use of rollers for leveling the snow on our highways, the frequent flushing of sewers and the better solution of the waste problem are matters which I recommend to the incoming board.

NEW INDUSTRIES.

The growth of a city is dependent primarily upon the opportunities for employment that it affords. Additional industries mean increase in wealth and population, two conditions that place the city a step forward in size and influence. As a merchant wisely brings home to the purchaser the knowledge of his wares, so the city must, if it seeks advancement, make its opportunities known to those whom it would attract.

In establishing a flourishing community none should be more active than the city councils to whom has been entrusted its destiny. Private bodies can and are performing good work in this movement, and with them we should labor in harmony, not in a spirit that fosters discord. Let you, as directors of the common weal, lead in the effort which must have result, ever ready to accept advice and support from any and all of our citizens. We should not be jealous of the advantages and resources which a generous Providence has wisely bestowed on our city. It is of vital importance that these should be made known to others, who, in utilizing them, will confer a benefit on all.

The legislature in its wisdom has by general law given the city legal power to exploit its advantages. I recommend an appropriation within reasonable bounds to carry on this publicity work, to be used in such manner as your desires and the law will permit.

Let us incorporate into our New Year's resolutions the promise to labor earnestly and faithfully for the advancement of our city in an industrial and commercial way.

Many of the recommendations and suggestions herein offered entail increased expenditures. In our capacity as public servants we should give them honest and serious consideration with a view to adopting such as material progress and the finances of our city will permit. Intelligent discussion of these various matters will be of value to our municipality, though judgement and economy postpone their adoption.

Obstacles will arise during our stewardship but let us with courage and perseverence soberly reflect on them, and in justice and fairness decide as conscience prompts and our obligation requires. Every taxpayer is entitled to his rights, and in a square, firm and honorable spirit let our actions at all times be for the good of all.

May harmony and honesty, good sense and faithfulness guide us in our deliberations to results that are meritorious and true.

T. F. Degnan, spare driver, Central Engine House.
H Molloy, spare driver.
C. H. Brodeur, spare driver.
J. G. Coffey, spare driver.

Fire Alarm Telegraph.

This branch of the service is now in perfect condition excepting the placing of wires in ducts located by N. E. T & T. Co. in place of over head wires.

Instructions to Key Holders and Citizens.

1. Upon the discovery of a fire, go to the nearest box, break glass in key box, place key in lock, turn, and hold back with key, as it is a spring lock, pull down the hook as far as it will go; shut the door. Do not try to remove the key, as it is locked in, and cannot be removed only by the engineers.

2. All persons giving alarms should remain awhile beside the box so as to direct the firemen to the fire.

3. No person will give an alarm for the same fire after the first alarm has been given without an order from an engineer or the officer in command, and the person so ordered will be sure to go to the same box from which the first alarm was given and report to the chief engineer.

4. Never signal for a fire seen at a distance; never touch a box except to give an alarm of fire; do not give an alarm for a chimney or grass fire, but notify central or nearest fire station by telephone.

Apparatus and Hose.

The apparatus consists of four Amoskeag steam fire engines, one-horse reel, four two-horse hose wagons, four supply wagons, one hook and ladder truck, one combination chemical hook and ladder truck, one Babcock chemical engine.

Steamer No. 2. will have to be thoroughly repaired. Estimated expense $1,000 should we have to replace boiler.

We have at present, about 10,000 feet of fabric hose in good condition.

Estimated Value of Property.

Steamer No. 1	$3,000.00
Steamer No. 2	3,000.00
Steamer No. 3	3,000.00
Steamer No. 4	4,250.00
Combination Chemical and Hook and Ladder No. 2	2,100.00
Hook and Ladder No. 1	1,900.00
Chemical No. 1	1,800.00
Old Ladder Truck	200.00
Hose Wagon, Engine No. 1	400.00
Hose Wagon, Engine No. 2	425.00
Hose Wagon, Engine No. 3	400.00
Hose Wagon, Engine No. 4	425.00
Hose reel, spare	150.00
Hose carriage, hand	100.00
Two hose jumpers	100.00
Supply wagons, (4)	650.00
Line wagons	145.00
Hose	7,200.00
Horses (29) and blankets	5,300.00
Harness	2,200.00
Tools	200.00
Chief's wagon	150.00
Furniture, etc	1,240.00
Badges	100.00
Central Station	34,000.00
Arlington Street Station	6,000.00
Lake Street Station	10,000.00
Amherst Street Station	41,000.00
Fire Alarm Telegraph	13,900.00
	$143,335.00

We would recommend the following: An up-to-date Aerial Ladder Truck estimated cost $5,000.00, an addition to Lake Street station for drilling purposes, estimated cost $500.00, also cable to be placed in ducts laid by New England Telephone & Telegraph Co. in place of overhead wires at an estimated cost of $350.00. 1-Motor driven Combination Chemical and Hose Apparatus, estimated cost $6,000.00, purchase 500 feet of hose estimated cost $500.00 and an appropriation of $40,000.00 for running expenses of the Fire Department for year 1911.

Respectfully submitted,

G. F. ADAMS,
H. W. RAMSDELL,
F. T. LEWIS,

Some Items of Expenditures.

Bridges and Culverts:	$38,394 15
This item includes the construction and maintenance, such as painting and resurfacing with plank and tar concrete, of all the highway bridges and culverts within the city limits, and the Suburban Districts. It is exceptionally large this year due to the construction of the Taylor's Falls Bridge.....	
Catch Basins:	1,764.44
General cleaning, repairing and cost of constructing new ones.	
Seventeen new basins were constructed during the year and are distributed as follows:-Concord Street 3, Garden Street 2, Kinsley Street 5, Main Street 2, Palm Street 1, Pine Street 1, Russell Ave. 2, and Worcester Street 1.	
Crossings:	
Cost of constructing and maintaining tar and flagstone crossings for the year... .	249.57
General Repairs and Maintenance:	9,120.57
The cost of repairing and keeping all the streets in good condition necessitates a large expenditure, among the larger of which are as follows:-	
Amherst Street.....	80.87
Ash Street.....	81.75
Auburn Street.....	246.09
Bridge Street.....	268.52
Broad Street.....	103.14
Burke Street.....	109.31

Concord Street	$453.35
Garden Street	77.43
Hollis Street, East	77.83
Hollis Street, West	164.67
Lowell Road	1,636.27
Main Street	176.27
Pine Street	136.50
Suburban Roads	1,026.23
Temple	103.88

Paving Gutters:

Very few gutters were paved during the year the only one of importance being Kinsley Street which was done in connection with the reconstruction of the Street 603.62

Removing Snow and Sanding Streets:

During the past year there was considerable snow and therefore this expenditure is larger than usual. This includes all work incident to keeping the streets and walks in a passable condition, also breaking out the Suburban Roads 5,146.77

Paving: 5,658.61

The following streets were paved during 1910.

Concord Street, Macadam,	2,287.54
Kinsley Street, Macadam,	693.41
Main Street, Granite Block,	460.36
Palm Street, Granite Block,	2,209.80

Edgestone 1,857.42

Much of the old edgestone now in place has been reset during the past year, and new stone has been set as follows-:

APPLICANT.	LOCATION.	FEET SET.
Estabrook-Anderson Shoe Co.	Lake, Ash and Pine Sts.	657.7
Mrs. Annie T. Cross	8 Highland St.	96.7
Mrs. Mary Babcock	Hall Ave.	18.0
Ferdinand Levesque	Lesage St.	73.2
Cordelia Riendeau	58-64 Perham St.	66.75
C. F. Wright	6-16 "D" St.	120.0
Albert F. Newton	18-20 "D" St.	57.1
Melvin Rogers et als.	3-5 Arlington Ave.	123.7
Rev. J. H. Jutras	108 Allds St.	222.6
Wm. Highton & Sons	Harbor Ave.	106.0
John Flaherty	Hamilton St.	63.8
Ellen M. Eaton	85-88 Lake St.	100.0
Ralph E. Streeter	90 Lake St.	65.0
Albert Shedd	105-107 Blossom St.	150.3
Endeavor Building Co.	98 Kinsley St.	40.5
Louis J. Dubray	Russell Ave.	183.7
Fred T. Buxton	Columbia Ave.	19.0
	Prospect St.	16.5

City Waste: $6,601.22

The cost of the collection and disposal of rubbish from houses and stores is a large item, and is continually growing, but it is hoped that in connection with the development of the Warner & Whitney purchase, an incineration plant may be installed which will materially reduce this cost.

Trimming and Care of Trees:

This item includes cutting and removing dead limbs and trees in the city streets..... 367.63

Street Cleaning:

Street cleaning is one of the larger and important items and includes all work in connection with keeping both the paved and unpaved streets in a sanitary condition. 6,654.95

Repair Tools:

All repairs to tools and machinery except the City Teams which are included in a separate item..... 260.87

Tools and Supplies:

The cost of all new tools, machinery and supplies not otherwise accounted for during the year..... $1,717.41

Inventory January 25, 1911.

11 catch basin bells.
5 patent catch basin traps.
8 wooden mauls.
1 discharge pipe.
3 catch basin rims.
6 catch basin covers.
1 manhole rim.
5 manhole covers.
3 cross cut saws.
2 sand screens.
10 ladders.
4 hand saws.
1 buck saw.

1 table
1 clock.
1 glass.
1 can blasting powder.
1 bitt-stock.
3 plow points.
2 iron wedges.
2 ladder carriages.
1 square.
1 hand set.
10 sewer rods.
11 push carts.
2 long handle scoops.
1 breaking out plow.
1 gutter plow.
25 lanterns.
1 tooth harrow.
10 catch basin weights.
10 wheel barrows.
2 sewer tripods.
1 12-ton Buffalo Pitts Steam Roller.
1 hose carriage & 300′ hose.
1 10 gallon oil can.
4 5 gallon oil cans.
10 barn brooms.
1 adz.
4 pair rubber boots.
1 saw horse.
1 hydrant wrench.
1 pipe wrench.
3 small wrenches.
1 climax crushing plant

Quantity of crushed stone.

150—feet straight edgestone.
10—pieces curved edgestone.
46′ 24″ akron pipe.

2′ 20″ akron pipe.
218′ 12″ akron pipe.
207′ 10″ arkon pipe.
204′ 8″ akron pipe.
244′ 6″ akron pipe.
9 12 x 6 y's.

By the City coming into possession of the Warner & Whitney property at the corner of East Hollis and Dearborn Streets, which is to be for the use of the Board of Public Works, it is hoped that with a small expenditure the buildings may be put in a suitable condition to serve as a stable and general supply yard which will be a great improvement over present conditions.

By having a large and centrally located yard closer attention can be given to the receiving and distributing of material and a more systematic method of careing for the tools possible, and in addition it is hoped to install an incinerating plant for the burning of the inflamable part of the cities waste.

We have already purchased and stored a quantity of sewer pipe and paving block with which to begin work next spring.

Respectfully submitted,

The Board of Public Works,

ALBERT SHEDD,
ERWIN O. HATHAWAY,
EDWARDH. WASON,
M. A. TAYLOR,
JOHN HAGERTY.

Auditor.

NASHUA, N. H. Jan. 9, 1911.

Librarian's Report.

To the Trustees of the Nashua Public Library:

Gentlemen:—The report of the library showing its work for the year 1910 is presented for your consideration.

The library has been open for circulation 306 days, the reading room 349. During the months of July and August the custom of several past years has been continued in the closing of both library and reading room on Tuesday and Thursday evenings, and Thursday afternoons, also the reading room on Sunday afternoons. The closing on holidays is the same as always has been observed.

In the report of last year the number of volumes given was 28,945. The entries on the accession book this year were 1,273, of these 982 were purchased, 48 added by binding periodicals, and 243 were given. After subtracting the 90 having served their usefulness which have been withdrawn and lost, our present number is 30,128.

In the reference department helps and sources of information have been added, as from year to year the demand increases, particularly for the schools and clubs. In several instances, when unable to supply the required information the Boston Library has kindly loaned the needed books.

The list of periodicals received during the year include 97 titles, 72 by subscription, and 25 by gift.

With the bulletins which are published quarterly, giving the additions of the preceding three months, the list of each month's additions, kindly published in the Telegraph, the type written list, beside that of the card catalogue, and the newest books placed where borrowers can select for themselves the books are made as accessible to the public as possible. Also all inquires at the delivery desk are given courteous and helpful attention.

The total number of volumes given out during the year was 74,985, of these 58,306 were in the main library, in the cihldren's 16,680. The largest circulation for any one day was 479, the smallest 34. The circulation of this year exceeds that of the previous one by 3,830. Last year there was a loss in circulation. From the reports of other libraries it seemed a general condition. One librarian giving five reasons for the decrease, some of them might apply to our library, but the chief undoubtedly was our inability to supply all the fiction required, and the circulating Libraries an the stores, having only fiction, could furnish the latest novel in larger numbers than we considered it wise to purchase. The same condition still applies, although, this year, a slight increase in non-fiction is noted.

To have more novels for patrons some libraries have added a pay department. Books being reserved and charged so much by the day or week. Most libraries find it advantageous, although it has been discontinued by a few. Should we adopt it shelves must be added from which the books may be selected, as all shelves now open to the public are in use.

Books are repaired in the library as far as possible, in some cases almost rebound. It has been necessary to send over 400 volumes to the bindery. The poor binding of the new books as well as the careless usage they receive make the number larger than it should be.

The registration of borrowers show an addition of 606 new names. Of these 382 are children.

The addition of book shelves in the children's room, the changing of the position of the librarian's desk and the new arrangement for ventilation have added both to its comfort and usefulness.

Respectfully submitted,

HARRIET CROMBIE,

Librarian.

REPORT OF MILK INSPECTOR.

Nashua N. H., March 14, 1911.

To the Board of Health of the City of Nashua:—

Gentlemen:— I submit below my report as Milk Inspector of the City of Nashua for the year ending Dec. 31, 1910.

Licenses.

The total amount of licenses issued during the year was (94) $188. being received from this source. This sum has been turned over to the City Treasurer.

Examinations.

During the year several samples have been collected and examined by me and in no case did I find evidence of adulterations or preservatives being used. Each sample was examined for the percentage butter fat and also for the amount of total solids present.

Ice cream.

The ice cream sold in this City during the year was found to be up to the standard and free from adulterants. This city is very fortunate in having such good milk supply and is up to the general average of other cities.

Respectfully submitted,

GEORGE F. SPILLANE,

Milk Inspector.

CITY SOLICITOR'S REPORT.

NASHUA, N. H. January 6, 1910.

TO HIS HONOR THE MAYOR AND CITY COUNCILS OF NASHUA:

GENTLEMEN:-I submit the following cases in which during the year, 1910, the City of Nashua has been and is now interested.

Gallagher v. Nashua. Action to recover damages for polluting water in a well on plaintiffs land.

Wright v. Nashua. Action to recover damages for polluting water in a well on plaintiff's land.

Ledoux Bros. v. Nashua. Action to recover damages to a horse caused by falling on Main Street. Case tried by jury September term, 1910. Jury disagreed.

Nashua Concrete Co. v. Nashua. An action to trespass for taking gravel from plaintiff's land on Chestnut Street.

Edgar S. Gale v. Nashua. Action to recover damages caused by a horse falling on Fifield Street.

E. Ray Shaw, admr. of William H. Kennedy Estate. v. Nashua and Town of Merrimack. An action for injuries causing death by an automobile going off the Pennichuck Brook Bridge, on Concord Road.

H. C. Parker, Trustee of Stetson Estate. v. Nashua. Petition for abatement of taxes.

C. R. Pease House Furnishing Co. v. Nashua. Four (4) petitions for abatement of taxes.

Nashua Card & Glazed Paper Co. v. Nashua. Two (2) petitions for abatement of taxes.

City of Nashua v. W. N. &. P. and B. & M. R. R. Petition to compel the railroad to build a bridge at crossing at Eaton Street.

Tessier v. Nashua. Petition for abatement of taxes. Case heard at the November session of the Supreme Court. Petition dismissed.

Victor St. Onge v. Nashua. Petition for abatement of taxes.

Alvaro Realty Co. v. Nashua. Petition for damages for land taken for street on Arlington Avenue.

Nashua v. Londonderry, Windham, Hudson, Litchfield and Pelham. Petition for contribution for construction of the new Taylor's Falls Bridge.

Nashua v. Nashua Street Railway and Boston & Northern Street Railway Conpany. Petition for contribution for construction of the new Taylor's Falls Bridge.

Hudson v. Londonderry, Windham, Litchfield, Pelham and Nashua. Petition for contribution for construction of the new Taylor's Falls Bridge.

During the year 1910, I have fulfilled all duties incumbent on me as City Solicitor,

Respectfully submitted,

STEPHEN L. HALLINAN,

City Solicitor.

ANNUAL REPORT

OF THE

TRUSTEES OF WOODLAWN CEMETERY.

To His Honor the Mayor and the City Councils of the City of Nashua, N. H.

Gentlemen:—The Trustees of Woodlawn Cemetery submit the following as their report for the year of 1910.

		$8,804.74

Respectfully submitted,
For the Trustees,
EUGENE P. JOHNSON,
Secretary.

Nashua, N. H. January 31, 1911.

ANNUAL REPORT

OF THE

TRUSTEES OF SUBURBAN CEMETERIES.

To His Honor the Mayor and the Honorable City Councils

Gentlemen:—The Secretary of the Board of Trustees of Suburban Cemeteries hereby submits his fourteenth Annual Report.

Condition of Cemeteries.

During the past year, as an evidence of the interest manifested in the historic associations of the Old South Cemetery, the Daughters of the American Revolution have caused a tablet to be erected in memory of those heroes buried here who fought in that memorable war.

In addition to the usual care for the coming year, the picket fence adjoining the school house lot should be painted and the bank wall on the east side relaid As mentioned in a former report, when the State Road was put in the grade of the street was lowered leaving this wall on a considerable embankment that in a very short time is liable to cave in. Some special provision should be made in order to put this in a proper condition at once.

The usual attention has been given to the Evergreen Cemetery and the improvements have been carried forward as far as the

to prepare the lots of the new portion for satisfactory burial places. Then, too, the fence adjoining the street needs painting very much.

The Hillside Cemetery and the Gilson Cemetery will need little more than the usual care for the coming season as their present condition is very satisfactory.

Interments.

There has been a total of five interments; one in the Old South Cemetery; one from out of town, in the Hillside Cemetery; three, one of which was from out of town, in the Evergreen Cemetery.

Finances.

Cash in hands of the Treasurer, January 1, 1910	$8.68	
City Appropriation	650.00	
Interest on City Note	12.00	
Coupons on City Bonds	24.00	
Lot sold	24.00	
Cash for perpetual care Fund	200.00	
Cash collection from cemetaries	104.85	
		$1,023.53

Bills approved and paid	$724.67	
Deposit in Citizen's Institution for Saving	200.00	
Cash in hands of Treasurer	76.86	
Cash in hands of Secretary	22.00	
		$1,023.53

Perpetual Care Fund.

City Bonds	$800.00	
City Note	200.00	
City Guaranty Savings Bank	300.00

Citizen's Institution for Saving	300.00	
Accrued interest on above (Jan. 1, 1911)	10.20	
		$1,664.86

LEVI W. GOODRICH,

Secretary.

Nashua, N. H. December 31, 1910.

ANNUAL REPORT

OF THE

TRUSTEES OF EDGEWOOD CEMETERY.

To the Honorable Mayor and City Councils:

Gentlemen:—The Trustees of Edgewood Cemetery present their 18th annual report, covering the calendar year 1910, as follows:-

Regular and special meetings have been held through the year at such times as the business of the Cemetery required. All property of the Cemetery has received careful attention and has been maintained in first class condition. The work on Border Avenue has been continued and the grading, which was left in the rough the preceding year, has been improved but not completed. We hope to complete it the present year, thereby bringing one of our principal drives into use and opening a large section of one of the most desirable portions of our grounds.

Statements follow showing our financial condition December 31, 1910, and our receipts and payments for the year.

Trust Funds for Perpetual Care of Lots.

HENRY H. DAVIS, Pres.

JOSEPH L. CLOUGH, Sec.

Nashua, N. H., January, 1911.

REPORT

OF THE

PARK COMMISSIONERS.

To His Honor the Mayor and City Councils of the City of Nashua.

Gentlemen: The Park Commissioners make the following report for the year ending December 31, 1910.

By carefully using the annual appropriation of $1,200.00 which was given for the care and improvement of the Park System, a substantial gain has been made during the year.

Greeley Park.

The stone taken from the site of the Greeley Buildings has been utilized by putting in a good foundation for a store house to keep our tools, settees, and nursery stock in. When completed it will fill a long felt want, and will be quite a saving, as all property belonging to the Park System has to be stored in different parts of the city. The grading and seeding at the Manchester Street entrance to the Parkway has been completed, and in a few years this entrance will be very attractive. Through the kindness of Mrs, Clara R. Wheeler, an addition of 376 feet has been made to the granolithic walk given by her two years ago. This will be continued 380 feet more the coming spring, making a fine walk 1300 feet long and 6 feet wide, the entire length of Concord Street bounding the Greeley Park.

Much grading had to be done to prepare for the walk. This had been shared by the Board of Public Works. For the second time in the history of Greeley Park, cultivated flowers have been set out in beds, and were in blossom the entire summer without being molested. Eighteen hundred pines have been set out in various parts of the Park during the year.

South Common.

The special appropriation of $500.00 to grade and loam a portion of the common, and also to replace the concrete walk, has been given careful attention. The work has been done by contract, and much has been accomplished. There is still much to be done to loam the area caused by the grading. In addition to this special work, another section of fence has been placed on the Elm Street side of the common. It is the intention of the Commission to continue this improvement the coming year.

Other Squares.

The other squares have had their usual care. The settees have all been repainted as well as the bleachers at the two ball diamonds.

Moth Work.

The moth work continues to be done more to the satisfaction of the Park Commissioners. The available funds makes it possible to start earlier in the season, thus enabling us to select good weather. We desire to call your attention to conditions in the city as relates to moth pests. The infestations by the brown tail moths average this year about the same as for the past three years. Some locations having more infestations and others less. The method of warfare against this pest has been the removal of the winter nests from the trees and destroying same by burning. A later and highly approved method is the spraying of the foliage with arsenate of lead. It is claimed

for the latter method. (1) That it is less dangerous for those employed in the work, the spraying being done from the ground or from a wagon platfrom. (2) The continued cutting away of the new growth from the trees and the punching of holes in the trunks and large limbs by the spurs of the climbers is injurious to the trees. The infestations of the gypsy moth are slowly increasing. The means used to hold them in check is the painting of the clusters of eggs with creasote oil, and where caterpillars are found to trap them by tying bands of burlap loosely about the trunks of the infested trees. These bands being examined daily and caterpillars concealed beneath them destroyed. The work has been performed by scouts in the employ of the U. S. Department of Agriculture. We are informed that heretofore the scouts have covered 100 feet of ground on either side of highways, but that this year will cover only 50 feet. Spraying is the most effective method of combaing this pest. The elm beetle is here in considerable numbers and work to keep the pest in subjection should be vigoursly pushed. Spraying is the only approved method thus far suggested of keeping this pest under control. In view of the facts as herein set forth we recommend that the city procure suitable spraying apparatus and spray the elms at least, the coming sesson.

Needs.

The Park Sysrem needs a larger appropriation if cared for as it should be.

Respectfully,

HENRY H. DAVIS,
HERBERT E. KENDALL,
ELMER W. EATON,

Park Commissioners.

REPORT

OF THE

POLICE COMMISSIONERS

OF THE

CITY OF NASHUA, N. H.

1910.

To His Honor the Mayor and the Honorable City Councils

The Board of Police Commissioners for the City of Nashua make their nineteenth annual report for the year ending December 31, 1910.

Regular meetings of the Board have been held and several special meetings are necessary in order to meet the requirements of demands each year for particular service. One officer resigned during the year and another was removed for neglect of duty. New appointments were made to fill the vacancies of these men and the force is complete at the present time.

It will be necessary to make some addition to the number of officers the coming year and the aim is to extend the protection both in time and territory.

We ask that in making the appropriation for this department that you be as liberal as you may be, consistent with your resources, as your Board recognizes the justice of the many demands upon them and desire to improve the service as much as possible.

The following is a statement of the different offences for which arrests were made, the number of the same, and showing how disposed of.

Arrests.

REPORT

OF THE

PROBATION OFFICER.

To His Honor the Mayor and Board of Aldermen:—

During the period from January first, to August thirty-first, while acting as Probation Officer in the Police Court of the City of Nashua, the following cases of juvenile offenders were attended to. The result of the system of probation in dealing with minors becomes more satisfactory as the system and experience is continued, and the decreasing number of offenders commited to the Industrial School is one of the gratifying features that commends itself to those that have the interest of the youth at heart.

On September first, Mr. Thomas Flood, was appointed Probation Officer, vice Martin W. Fitzpatrick, resigned.

	Boys	Girls
Number of cases continued on probation from 1909	11	2
Number of cases arraigned before Juvenile Court, from January 1st. to August 31st, 1910	22	5

MARTIN W. FITZPATICK,

Probation officer.

REPORT

OF THE

PROBATION OFFICER.

To His Honor the Mayor and Board of aldermen:

The operation of the Probation System in conjunction with the Juvenile Court in the City of Nashua from Sept. 1, 1910 to Jan. 1, 1911 was successful. The Probation System has shown satisfactory results in a general way, and it has been especially effective in dealing with truancy.

The System is to be encouraged, as I find a tendency on the part of the probationer to do better.

Whole number arraigned	6
Number of boys	5
Number of girls	1

Offences.

REPORT OF EXECUTIVE COMMITTEE.

GENTLEMEN:—The Executive Committee of your Board of Trustees submits its report for the year ending December 31, 1910.

Number of surgical cases admitted during the year..	402
Number of medical cases admitted during the year ...	103
Total number of cases.....	505
Number of accidents admitted.....	84
Number of major operations.....	119
Number of minor operations	283
Total number of operations.....	402
Number admitted in a moribund condition.....	1
Number died from disease and accident.....	19
Total deaths.....	20
Largest number of patients in one day.....	32
Average number of patients each day	18
Increase in number over last year.....	34
Number of patients who paid their bills.....	347
Number of patients who paid part of their bills.....	19
Number of patients who paid nothing on their bills	139
Total.....	505
Percentage of charity patients to total number....	31%
Average cost per patient per day.....	$1.96

The increase in the number of patients made it necessary to secure all available space for their accomodation and early in the spring that portion of the annex occupied by the senior nurses was given over to the patients and rooms were secured for five nurses at 10 Prospect street. The change gives four additional beds for hospital use.

Painting and renovating the buidling, inside and out, changing all exit doors so that they swing outward and building

suitable storm shields for winter protection; and a modern steel fire escape from the third story of the main building—the two latter to conform to the suggestions and plans of the board of fire commissioners, were improvements undertaken during the year.

An increase of $500. was made in the city appropriation, following the appearance of a committee before the city councils, headed by Colonel Maynard. Several small donations have helped meet expenses.

During the summer, the nurses, under leade ship of the matron, held a lawn party upon the hospital grounds and the proceeds, amounting to nearly $600, were expended in the purchase of a first-class operating table, steel instrument case and in replacing worn-out articles of furniture. This party, gotten up and managed entirely by themselves and carried on in addition to their regular duties, reflects the enthusiasm and humane spirit which they carry into their work.

We commend the careful management and the hard and conscientious work of the matron, Miss Heineman. The members of the staff have responded to calls cheerfully and as a rule, show interest in their work and in the good of the institution.

One thing more—we need money—donations large and small. We need a new hospital building.

Respectfully submitted,
EXECUTIVE COMMITTEE.
A. W. SHEA, Chairman.

TRAINING SCHOOL REPORT.

GENTLEMEN:—The Training School of the Nashua Emergency hospital had its beginning in November, 1899, now, after ten years of actual work we can announce the fulfilment of the prophecy of Dr. F. E. Kittredge, then chairman of this committee, that it would be a success. The history of the training school for the past year has been largely a repetition of previous years.

Number of nurses in school January, 1910	12
Number of nurses graduated during 1910	6
Number of applications received during 1910	35
Number of nurses accepted during 1910,.....	5
Number of nurses withdrawing during 1910.....	9

Our endeavor during the year has been to teach the art of practical nursing, avoiding the schemes of extended theore ical education that belong to the training of the physician. The nurse should not be burdened with the attaining of knowledge other than that having a practical bearing upon the patient in the sick room. Some changes must continually be made in the lectures to keep pace with the advance in surgery and medicine. The medicine of the future, much more than that of the past, will have to do with the prevention of disease, consequently the nurse must be instructed upon general nursing in the home, the proper diet in sickness as well as health, asepsis and antsepsis, the first aid in medical and surgical cases and many other branches and above all she must know how and be trained to follow out the physician's instructions. This your committee has endeavored to do and feel that in efficiency this training school compares favorably with those in other hospitals.

We keenly feel the loss of Dr. Charles B. Hammond, who at the time of his death was chairman of this committee. He was a valued member of the medical fraternity and was beloved by all. He was greatly interested in the training school and was especially adapted to this department of work.

Respectfully submitted,

BRADFORD ALLEN,

For the Committee.

TREASURER'S REPORT.

To The Nashua Hospital Association:

Gentlemen:—The following report of the finances is submitted:

Cash Received.

On hand Jan. 1, 1910	$1,263.98	
City appropriation	2,000.00	
Donations in cash and legacies	2,378.30	
Income from patients	8,786.52	
		$14,428.80

Cash Paid Out.

Medical and surgical supplies	$1,708.45	
Salaries	3,418.07	
Hospital supplies	3,166.49	
Fuel, light and ice	1,176.35	
Laundry	972.71	
Interest on loan	175.00	
Repairs	1,165.14	
Water	141.80	
Incidentals	928.69	
Toward mortgaged debt	1,500.00	
Balance on hand	76.10	
		$14,428.80

We acknowledge a legacy of $1,000 from the G. A. Rollins estate and another of $500 from the Mary A Spalding estate, which total amount of $1,500 has been applied on the mortgaged debt.

We acknowledge donations from the following:—Mrs. Mary A. Dearborn, from sale of cook books, $10; Roby Farm Dairy $25; Margaret Hill, $10; Hudson Old Home Week Committee, $7; Boston & Maine Railroad, $250; and through the efforts of the nurses at the hospital, the sum of $576.30 was realized from a fair and by them donated for hospital needs.

As shown by the above figures he work of the hospital is constantly increasing and although the income from patients increases the expense necessarily grows larger. Whenever the public awakens to the excellent work carried on by this institution undoubtedly more frequent and larger donations will be made, thereby permitting the installation of more modern and much needed equipment for better work. Notwithstanding the fact that the results of present effort are most commendatory, still better work will be accomplished when better facilities are furnished.

Respectfully,
JAMES B. CROWLEY,
Treasurer

Auditor's Report

NASHUA, N. H., Jan. 17, 1911.

I have examined the Treasurer's accounts and find them correct.

I. G. ANTHOINE, Auditor.

ANNUAL REPORT

OF THE

BOARD OF HEALTH

To His Honor the Mayor, and City Councils:—

Gentlemen:—The Board of Health submits their report for the year ending December 31, 1910.

In comparison with the preceeding year the number of contagious diseases were much less, especially Scarlet Fever and Diptheria. Numerous complaints were received and promptly attended to in an impartial manner.

The slight overdraft in the Appropriation of the Contagious Diseases department, is due to the fact that a large sum of money was expended for vaccination of the school children.

In order to increase the eficiency of the local Board of Health we recommend the creation of the office of a Health Inspector, and that he be given a salary large enough so that he may devote all his time to sanitary work.

We also urge the appointment of an inspector of plumbing, as we know that there is a great need of such an officer.

We again call your attention to the great need of a school inspector, in our public schools. Such an officer would to some extent prevent the spread of contagious diseases.

The whole number of deaths reported to the Board was as follows:—

General Diseases.

Addisons disease	1
Alcoholism acute	1
Alcoholic poisoning	1
Anæmia	1
pernicous	2
Arthritis deformans	1
Cancer:	
abdominal	1
bowel	1
face	1

REPORT OF CITY PHYSICIAN.

To His Honor, the Mayor, and the Honorable City Councils:-

Gentlemen:-I herewith submit the report of the City Physician for the year ending December 31, 1910.

During the year 385 House calls and 346 office visits were given to the dependent poor of the city, and 46 people were treated at the police station.

Respectfully submitted,

PATRICK J. McLAUGHLIN, M. D.

City Physician.

RESOLUTIONS

AND

ORDINANCES

Passed During the Year

1910

RESOLUTIONS AND ORDINANCES.

RESOLUTION.

ADOPTING JOINT RULES AND FIXING TIME FOR HOLDING REGULAR MEETINGS.

That the joint rules of the City Councils for the year 1909 be and the same are hereby adopted for 1910 until otherwise ordered, and he time for holding regular meetings shall be on the second and fourth Tuesdays of each month, at seven o'clock and thirty minutes in the afternoon.

Passed January 1, 1910.

RESOLUTION.

AUTHORIZING THE COMMITTEE ON ACCOUNTS AND FINANCES TO HIRE MONEY.

ORDERED: That the Committee on Accounts and Finances be and they hereby are authorized to borrow from time to time during the current municipal year beginning January 3rd., 1910. in anticipation of the taxes of said municipal year, a sum or sums not exceeding $250,000.00, two hundred and fifty thousand dollars; for the purpose of meeting current expenses of the City; and the Mayor and City Treasurer are hereby authorized to execute and issue the negotiable note or notes of the City of Nashua therefor; every such note to become payable within one year from the date the loan for which it is issued is incurred, and no such note shall be valid unless authenticated by the certificate of the First National Bank of Boston:

All debts incurred under authority of this vote shall be paid from the taxes of said current municipal year.

Passed January 1, 1910.

RESOLUTION.

AUTHORIZING THE MAYOR AND CITY TREASURER TO HIRE MONEY.

That the Mayor and City Treasurer are hereby authorized and instructed to borrow a sum of money not exceeding one hundred dollars:

This sum to be turned over to the Department of the Board of Public Works to be used in establishing and maintaining an ice skating park on the North Common, and an ice skating park on the South Common, and also upon a tract of land on Crown Hill known as "The Duckery", under the direction of the Board of Public Works.

Passed February 8, 1910.

ORDINANCE.

IN RELATION TO BUILDINGS WITHIN CERTAIN LIMITS.

That Chapter IX of the Revised Ordinances of the City of Nashua, and any and all amendments thereto be and are hereby repealed and that the following ordinance be substituted therefor:

Section 1. Within the limits hereinafter described, no person or persons shall erect, or cause to be erected, any building, or raise or enlarge any building now or hereafter erected, unless all the external walls (except so much as may be necessary for doors and windows) be built of brick, stone, cement or iron; if of brick, nor less than eight (8) inches in thickness; if of stone, not less than twelve (12) inches in thickness; if of cement or

iron, the thickness to be subject to the approval of the Board of Fire Commissioners of said City of Nashua; the roof shall be of slate, iron, gravel or other incombustible material.

Section 2. The restrictions and prohibitions contained in this Ordinance shall apply to such portions in said City of Nashua as are included in the following district, to wit: Beginning at Fletcher Street with its intersection with Main on the south side of Fletcher Street, thence along the south line of Fletcher Street to the east line of Green Street, thence south along the east side of Green Street to Franklin Street, thence east on the south side of Franklin Street to Front Street, thence southwesterly by the east side of Front Street and continuing across the Nashua River in a southwesterly line to Factory Street with its intersection with Walnut Street, thence south along the east side of Walnut Street to West Pearl Street, thence east along the south side of West Pearl Street to the northeast corner of Elm Street, thence south along the east side of Elm Street to West Hollis Street, thence east along the north side of West and East Hollis Street to the Southwest corner of Mason Street, thence north along the west side of Mason Street to the southwest corner of East Pearl Street, thence west on the south side of East Pearl Street to the southwest corner of Spring Street, thence north on the west side of Spring Street to Temple Street, crossing Temple Street and continuing around on the east side of the Street in front of the Pilgrim Church to the southwest corner of Olive and Church Streets, thence north along the west side of Olive Street in a northerly direction to the Nashua River, croissing the Nashua River, Railroad and Canal Street in a northerly direction to Orange Street, continuing on the west side of Orange Street to the northwest corner of Orange Street at Lock Street, thence west on the south side of Lock Street to Lowell Street, thence west on the south side of Lowell Street to the intersections of Concord, Lowell and Main Streets, thence south on Main Street to the corner of Fletcher Street.

Section 3. The restrictions and prohibitions contained in this Ordinance shall not apply to the remodelling of buildings-

provided the highest point of the remodeled building does not exceed the highest point of the roof of the old structure; or to buildings erected, raised or enlarged for dwelling houses, and for no other purposes, provided the same be located not less than ten (10) feet from any other buildings, contain not more than four tenements and be of no more than two stories in heighth.

Section 4. No building now or hereafter erected shall be altered or enlarged within the above described limits without the written permission of the Board of Fire Commissioners of the City of Nashua.

Section 5. Any person or persons violating the provisions of this Ordinance shall be punished by a fine of twenty dollars ($20.00), and shall incur a penalty of ten dollars ($10.00) for each day he or they shall maintain any building so erected, raised or enlarged.

Section 6. All ordinances or parts of ordinances inconsistent herewith are hereby repealed.

Passed March 8, 1910.

ORDINANCE.

CURFEW ORDINANCE.

Section 1. It shall be unlawful for any minor under the age of fifteen years to be upon any public street, square, lane or alley or in any public place, after the hour of nine o'clock in the evening unless such minor is accompaied by a parent, guardian or by some other suitable adult person.

Section 2. Any parent, guardian or any person having the control of any minor under the age of fifteen who shall unlawfully permit any such minor to be upon any public street, square, lane or alley, or in any public place, in violation of this ordinance, shall upon conviction thereof be punished by a fine not exceeding five dollars or by imprisonment not exceeding thirty days or both.

Section 3. Any minor violating the provisions of this ordinance shall, upon conviction, be punished as in the case of stubborn and disobedient children.

Section 4. It shall be the duty of the Police Officers of the City of Nashua to see that the observation of this ordinance is strictly enforced, and they shall report to the chief of Police the name and address of each child found upon any public street, square, lane or alley, or other public place in violation of the provisions of this Ordinance.

Section 5. This ordinance shall take effect upon its passage.

Passed May 24th, 1910.

RESOLUTION.

IN RELATION TO THE TIME FOR THE PAYMENT OF POLL TAXES.

That the time for the payment of poll taxes in the City of Nashua be on or before September 1st, 1910. And if such tax shall remain unpaid, the collector is directed to proceed in the collection of he same according to Section 19, Chapter 60, of the Public Statutes of the State of New Hampshire.

Passed August 9, 1910.

RESOLUTION.

AUTHORIZING THE MAYOR AND CITY TREASURER OF THE CITY OF NASHUA TO BORROW MONEY FOR THE PURCHASE OF LAND AND BUILDINGS, CORNER OF HOLLIS AND DEARBORN STREETS.

That the Mayor and City Treasurer are hereby authorized to borrow money and issue the City's note therefor in the sum of five thousand dollars for such time not exceeding one year, as they deem advisable, said money to be used for the purchase of land and buildings for the highway department situate in said Nashua, at the corner of Hollis and Dearborn Streets, known as the Warner and Whitney shop premises.

Passed September 13, 1910.

RESOLUTION.

REIMBURSING WARD OFFICERS.

That the sum of ten dollars be allowed the Moderator, Ward Clerk, each Selectman and each Ballot Inspector for their services at the Primary Election held September 6, 1910.

Passed September 13, 1910.

RESOLUTION.

IN RELATION TO THE ISSUANCE OF NOTES TO PAY FOR THE CONSTRUCTION OF A BRIDGE ACROSS THE MERRIMACK RIVER AT TAYLOR'S FALLS, SO-CALLED.

That the following are fixed as the particulars of the $50,000.00 notes to be issued for raising the money appropriated by the Resolution passed by the City Councils on May 10, 1910 for the construction of a re-inforced concrete bridge across the Merrimack River at Taylor's Falls, so-called.

There shall be ten notes of $5,000.00 each, dated October 1st. 1910, due October 1st, 1911 with interest meantime, payable semi-annually at the rate of five per cent. per annum.

The notes shall be coupon notes, payable to bearer, and the interest and principal shall be payable at he First National Bank of Boston.

The notes shall bear the City Seal, be signed by the Mayor and countersigned by the City Treasurer. The coupons shall bear the fac-simile signature of the City Treasurer.

The notes shall be considered as issued by virtue and in pursuance of the Municipal Bond Act of 1895. None of the notes shall be obligatory without the authenticating certificate of said bank. All other particulars as to the form, issuance and sale of said notes shall be determined by the Mayor and City Treasurer.

Passed October 11, 1910.

RESOLUTION.

EXEMPTION FROM TAXATION THE PROPERTY AND CAPITAL STOCK OF THE W. H. MCELWAIN COMPANY FOR A PERIOD OF TEN YEARS.

Whereas, The W. H. McElwain Company, a corporation duly established by law, proposes to put in operation in the City of Nashua, in the building now occupied by the Estabrook-

Anderson Shoe Company situated on Lake Street at the corner of Ash Street, a manufacturing establishment for the manufacture of boots and shoes, and for that purpose proposes to bring to Nashua and use additional machinery, stock in trade, capital and other property; now therefor be it

RESOLVED, that all machinery, stock in trade and other property, which may be owned or used by the W. H. McElwain Co- in said factory at the corner of Lake and Ash Streets, known as the Estabrook-Anderson factory, or any addition which may be made thereto for the manufacture of boots and shoes, and the capital to be used in operating the same and the business connected therewith be exempted from taxation for the period of ten years from the first day of December 1910; provided, that said W. H. McElwain Company pay to the City of Nashua, annually, the amount of the State and County Tax due in respect to said property from said City of Nashua to the State of New Hampshire and the County of Hillsborough, as required by an act of the Legislature of said State approved April 9, 1909, and entitled "An Act in amendment of Section 11 of Chapter 55 of the Public Statutes relating to tax exemptions"; and be it further

RESOLVED, That this resolution shall take effect upon its passage.

Passed November 22, 1910.

RESOLUTION.

EXEMPTING FROM TAXATION THE PTOPERTY OF THE NASHUA REALTY COMPANY FOR A PEROID OF TEN YEARS

Whereas, the Nashua Realty Company proposes to buy the recently constructed shoe factory now owned by the Estabrook-Anderson Shoe Company, at the corner of Lake and Ash Streets, in said Nashua, and to enlarge said factory, and to contract with the W. H. McElwain Company that said McElwain Company shall have the exclusive use and occupancy of said factory,

and of all additions that may be made thereto, for manufacturing boots and shoes; therefor be it

RESOLVED, that the said factory, so to be acquired by said Nashua Realty Company, together with any additions or enlargements which may be made thereto, and the machinery therein, be exempted from taxation for a period of ten years from April 1, 1910; provided, that said Nashua Realty Company pay to the City of Nashua, annually, the amount of the State and County Tax due in respect to said property from said City of Nashua to the State of New Hampshire and the County of Hillsborough, as required by an act of the Legislature of said State approved April 9, 1909, and entitled "An Act in amendment of Section 11 of Chapter 55 of the Public Statutes relating to tax exemptions;and be it further

RESOLVED, that this resolution shall take effect upon its passage.

Passed November 22, 1910.

REPORT OF THE SUPERINTENDENT.

GENTLEMEN OF THE BOARD OF EDUCATION:—

I beg to submit my eighteenth annual report, the forty-fourth of its series.

The one noteworthy event of the past year has been the introduction of manual training into the Nashua schools. For the past decade, the Board of Education has believed in and recommended to the City Government the institution of this department, but until last year their efforts have been unavailing. It is with particular pleasure, therefore, that I am able to incorporate in my annual report a notice of the addition of this most valuable and essential department of our public school system. Other cities have forestalled Nashua in the introduction of manual training, but I doubt if any city in New England has stonger adherents or more firm believers in the efficiency and the need of this department. The work has been received and carried on with enthusiasm, not only by the teachers and pupils, but by the parents and citizens, as is evidenced by the number of visitors which are recorded daily at the manual training rooms.

The Board of Education has been fortunate in obtaining the services of Mr. Beck as manual training instructor. Mr. Beck comes to his work with the highest recommendations and fully equipped to carry on our course of manual training along the most modern and approved lines. This factor of progressiveness in the instructor is particularly essential in a department like that of manual training from the fact that it is at present in its infancy and the courses are necessarily meeting with rapid change and evolution. What was good practice a few years ago is already relegated to the past and more modern ideas have taken its place. Undoubtedly in the years to come, the present scheme will see great modifications. It is essential, therefore, that the supervisor should be

a man of alert mind, quick to see the trend of affairs in his department and endowed with the courage to meet and adopt them as they appear to be for the betterment of manual training as a whole. Fortunately we have in a neighboring city one of the best examples of the trend of manual training toward the trade school idea. At Fitchburg, Massachusetts, has been worked out, perhaps more fully and carefully than in any other city, the scheme of uniting the manual training of the upper grades of the high school with the actual manufacturing plants of the city. There can be no doubt in this connection of two important facts: first, that there has been within the past few years a decided movement toward the trade school idea in the department of manual training, and, second, that where this idea has been most completely carried out, as in Cincinnati, Fitchburg and Providence, it has proven to be a remarkable success, both from the manual training point of view and from the point of view of the school authorities. I would earnestly urge this Board of Education and especially the Committee on Manual Training to carefully investigate the Fitchburg plan, so-called, with a view to its introduction into the last three years of our high school curriculum.

While speaking of this department, I wish to mention the excellent work accomplished by Miss Blodgett, our sewing instructor. The work has been carried on with diligence and, considering the time devoted, Miss Blodgett has a--chieved most excellent results. In visiting the classes under her charge the pupils seem to be full of enthusiasm and exceedingly interested in their work. I would earnestly recommend that Miss Blodgett be allowed to increase the scope of her department according to the ecommendations found in her report.

In connection with the manual training, I wish to again bring to your notice the need of a new building on or near the Spring street lot. At present, one of the ninth grades which would ordinarily belong to the Spring street building, is attending the new high school building on Temple street.

I have been assured by Mr. Noyes that in all probability he will be obliged to use this room another year for his high school classes. Just what will be done with the extra class next fall is a problem as yet unsolved. In addition to the need of providing for this extra ninth grade room, there comes the necessity of giving more room to the manual training department. As this department grows, which it is bound to do, our present quarters will prove altogether inadequate and something must be done to give relief. As I pointed out in my report last year, the two rooms on the third floor of the Spring street building are unsuitable for class room purposes and are open to the same objection precisely as were the two rooms on the third floor of the Mt. Pleasant building. In addition, however, to the fact that they are on the third floor with insufficient fire protection is the disadvantage of poor light and poorer ventilation. A new building would immediately remedy these difficulties.

It would seem, therefore, highly desirable that the Board of Education should request the City Government to build a large, commodious grammar school building near the Spring street building to take care of the present needs and also to provide for the normal growth of our public schools.

To summarize, a new building would provide proper quarters for the department of manual training; it would provide room for the ninth grade, at present occupying a room in the high school building; it would take the two rooms from the third floor of the present Spring street building; if so desired, it would provide modern quarters for the two kindergarten rooms on East Pearl Street.

I should like to call the attention of the Board of Education again to the need of medical inspection for all public school children. The humanity as well as the good business sense of this idea is appealing more and more to the American people. The absurdity of a town wasting its money and of the teacher wasting her time in attempting to instill knowledge into the mind of the child who is dull through some easily

remedied defect is becoming increasingly apparent. The work done by your Committee on Sanitation is already bearing its fruits. The teachers have been given minute instructions in regard to the detection of disease and as a direct result there has been very little contagion of the more serious diseases among the schooll children.

Along the same line the installation of sanitary drinking fountains should be spoken of and most highly recommended. The doing away with the old-fashioned drinking cups disposes of one of the most serious means of contagion. I would respectfully urge upon this body the necessity of equipping the schools with all the sanitary defences which will stand between our pupils and communicable diseases.

During the past two years the teachers of Nashua have maintained voluntarily an organization known as the Nashua Teachers' Association. They have had frequent meetings both for mental improvement and also for social ends, which have resulted in a very desirable esprit de corps. In fact, I have known of no period since I have been superintendent of the schools of Nashua when there has been greater unity among the teachers than there is at the present time. While the teachers of this city have never been lacking in loyalty to the schools and to each other, the substantial recognition which this Board of Education has given within the past few years of its appreciation of their services has aroused an increased enthusiasm and a new spirit of work.

In closing this report, I wish to acknowledge the loyal support given me by the Board of Education during the past year.

Respectfully submitted,

JAMES H. FASSETT, Sup't.

January 27,1911.

Report of Principal of the High School.

Mr. James H. Fassett, Superintendent of Schools:—

Sir:

In compliance with your request, I submit the following:

So far as I can ascertain no separate report has been made by the principal of the High school since 1898; and the last one before was made in 1892. I shall, of course, not attempt to give any complete account of what has been done in the High school during the long time which has elapsed since the last report, but in a few particulars I will compare the present with the past. I have looked up the number of pupils who entered this school in each of the classes from the year 1887 to the year 1906. This is a total of twenty classes and includes the one which graduated last June. The whole number of pupils enrolled in these classes during the first month of their attendance was 1624; the number who received the diploma of the school was 734. For the first seventeen of these classes, the number of graduates was 43 per cent of the number who entered; for the last three classes, the number of graduates was 53 per cent of the number who entered. Of the twenty valedictorians from these classes seven were boys and thirteen were girls; one became a clergyman, one a lawyer, three are students in higher institutions, three accepted business positions, and the others, twelve in number, engaged in teaching. Of these twelve teachers, three hold positions on college aculties. The following figures will indicate something of the growth of this school for the last twelve years. In October 1898, the number enrolled was 199; October 1902, 265; October 1906, 309; October 1910, 396. The difference between the number of boys and the number of girls is not so great as it is in many schools, in fact at one time within a year, there were more boys than girls in the school. We have had seven graduates students this year. Forty ninth-grade pupils are using one of the rooms in the annex. Next year's senior class promises to be the

largest in the history of the school. With an entering class of more than normal size it is almost certain that the High school will need this room next year. The manual training shop brings not less than 250 persons to the building each week.

The total number of teachers, including the principal and the clerk, is sixteen. This number does not include the music teacher, who conducts the chorus class one period each week and instructs a class in the principles of harmony another period each week; nor does it include the instructor in drawing who devotes five periods each week to the High school. Leaving out of the reckoning this work in music and drawing and calling the number of instructors fifteen, then each teacher this year has an average of 123 different pupils a week in her classes. The following table shows the number of pupils enrolled this year in each subject.

English Literature	397
English Composition, class instruction	255
English Composition, individual instruction	142
History	248
Latin	166
French	221
German	73
Algebra	156

Penmanship	57
Political Economy and Commercial Law	19
Commercial Arithmetic	59
History of Music	14

The standing of this school from the point of view of colleges and higher institutions is satisfactory. As proof of this I would call attention to the following:

Under date of January 26, 1909, this notice was received from the office of the President of Worcester Polytechnic Institute. "It gives me pleasure to inform you that by recent action of the Faculty, the Nashua High School, Nashua, N. H., has been placed upon the list of schools from which the certificate of the Principal is accepted, in lieu of examination, for admission to the Institute for the period of three years terminating Jan. 1, 1912." Our school had never been placed on this list before. Approval was granted after a careful, personal examination was made of our equipment, marking system, records, and teaching force, by Dr. L. L. Conant, one of the older professors connected with the Institute.

Under date of May 14, 1909, the following was received,—"The High School in Nashua, N. H., has been approved by the New England College Entrance Certificate Board for three years commencing January 1, 1910." This certificate privilege is granted only for three years at a time, and when application is made for a renewal, the records of all the students who have entered college upon the certificate of this school are examined and the granting of the renewal depends upon the showing made in college by our certified graduates. This approval permits us to send students upon certificate to the following colleges, Amherst College, Boston University, Bowdoin College, Brown University, Dartmouth College, Mount Holyoke College, Smith Coollege, Tufts College, University of Maine, University of Vermont, Wellesley College, Wesleyan University and Williams College. Harvard, Yale, and the Massachusetts Institute of Technology are examples of institutions which will not admit students from any school without examination. We have been on this approved list for several years and the right has never been withdrawn from this school. Moreover, no pupil sent to college with the certificate of this school has failed to make good in college.

At the present time we have students, who have gone directly from the Nashua High School, in the following institutions: Dartmouth, New Hampshire State College, Middlebury, Colby, Norwich University, Trinity, Byrn Mawr, Pratt Institute, Worcester Polytechnic Institute, Massachusetts Institute of Technology, Boston University, Boston College, Mount Holyoke, Smith, Wellesley, and Harvard; and also pupils in the normal schools at Plymouth, Keene, Fitchburg, and Lowell. These pupils have entered, some upon full certificate, some upon partial certificate, and some upon examination. Of the pupils who graduated from the Nashua High School in the four classes of 1906-1909, thirty-four out of each one hundred actually entered higher institutions. This does not include those who went away from here to finishing schools or to academies.

Some of the changes made recently are: the raising of the standard of promotion, so that now no one is promoted who has altogether in his past record the equivalent of one-half year of work in four subjects below standard. Formerly pupils were promoted who had much more work to make up.

For the last few years no one has been required to repeat, when he failed of promotion, any subject in which he had obtained promotion rank. Formerly pupils had to repeat all subjects in a grade.

Pupils now study in rooms entirely separate from the rooms where recitations are in progress.

Very much more work is required today in this school in History and English, than was required a few years ago.

The commercial department is a comparatively recent addition to the school. The work in this department is of a high grade as is shown by the success of those who have graduated from the business course. A diploma is not awarded in this course to pupils who fail to obtain a rank of B in commercial subjects. The rooms on the first and second floors of the annex are used entirely for the study of bookkeeping, stenography, and typewriting. These rooms are well equipped.

The school year has been lengthened two weeks because with raising of standards of admission to college it was felt that more time was needed in which to do satisfactorily the work required. Before this year this school has had, during its four years course, sixteen weeks less time than many schools have in which to prepare pupils for college. A great many schools recommend five full years for preparation for college.

We have been able for the last two years to have ready on the first day of the fall term a program of recitations that met nearly all the requirements of all the pupils who were regular students; and on the day of opening school there was given to each pupil, who was in the school the year before, a card showing exactly where that pupil belonged every one of the thirty recitation periods of the week. This preliminary preparation has prevented loss of much time and greatly facilitated the work of the first few weeks of the year.

In two or three respects the material equipment of the school is not at all satisfactory. When the telephones were installed in the building many of the wires were left exposed under the desks used by the teachers. Through the ordinary use of these desks the wires are often disconnected and then, of course, the telephones cannot be used. If the system were in working condition all the time, it would save a good deal of going up and down stairs. The wires might be covered.

The clocks in all the rooms, the bells which call the pupils into the building, and the recitation bells are all controlled by a master clock. The whole system is supplied with power by an electric battery in the basement. This clock system does not do its work. The mechanism, which rings the bells, often falls behind so that the bells do not ring on time unless some person stands ready to push the button. I have often had to leave a class and go to the office to sound the bells.

Just at present all the ringing of the recitation bells is being done by hand. We are not receiving from the clock system the service paid for. Occasionally all the bells in the building begin to ring and will not stop until someone goes to the

basement and breaks the circuit in the battery closet. The high school in Woburn, Mass., is equipped with the same make of clocks, and in that city troubles with the system were similar to ours until the clocks were connected with the electric lighting plant. The cost of making the change was about $25. The principal of the school in Woburn is heartily in favor of the change which was made there. I have not seen our bills for repairs and new battery cells but I think that the cost of maintaining our system is much greater than the cost of maintaining the one in Woburn. I should very much like to see our clock and electric bells put into good working order.

On cold, blustering days the heating plant is not equal to the task of supplying enough heat for the building. No addition has been made to the number of boilers since the building was first occupied and six rooms have been added to the building in that time. Of these six rooms the one used for bookkeeping and the one used for manual training are twice the size of the ordinary recitation rooms.

Athletic sports are carried on in a much more sportsmanlike way than they were some years ago. The improvement is not noticeable in this school only, but in the schools with which we compete and indeed in a much wider circle. The number of pupils who engage actively in the sports forms only a small percentage of the enrollment of the school. The number for whom the games furnish a means of entertainment is much larger. Regular, systematic exercise in a gymnasium, talken by all pupils and under a competent physical director would be a great help to the scholastic work of the school. I deplore the tendency to make athletics increasingly expensive in High schools but I am pleased to record that our athletic association is entirely free from debt, a better showing than we have sometimes been able to make. The baseball and the football teams were both sucessful in winning pennants this year in the Triangular league.

I am asked sometimes why it is that boys, who have left this school and have continued their studies, occasionally do better elsewhere than here. In reply I will say that so far as I can recall, boys do not do better who enter other public High schools, and some who enter private schools show no improvement. It is not uncommon, however, for a pupil to accomplish more in a first-class preparatory school because he or his parents are then paying out money directly for his tuition, books, and other requisites. Often under these circumstances he is told by his parents that if he does not make satisfactory progress, he will be taken out of school and put to work. In sending pupils to a public school no such direct strain on the pocketbook is felt.

Again, in good private schools the management weeds out the incompetent, the indifferent, and the lazy. And when this is done no complaint is made by those who patronize the school. Such summary action in certain public schools would not be tolerated. A principal of a private school, not as large as our school, told me not long ago that it was his practice to remove thirty or forty each year from his school. The effect of such methods is to tone up the work of those who remain. Many private schools spend per pupil two or three times as much as is spent here, for teachers and equipment.

Again, private school authorities have control of their pupils forenoons, afternoons, and evenings for seven days in the week. This is a very different arrangement from that which prevails in the case of city H gh school pupi s, who in some instances make school work, and especially home study, the last matter to receive attention.

Again, when a boy goes away to s hool he is more likely to have a well defined object in his mind for which he is ready to sacrifice. Too many High school pupils are satisfied to drift along from year to year with nothing to their credit above a mere passing mark, and with no distinct purpose clearly in view. A definite goal, decided upon early in the four years, is a wonderful tonic to a High school boy's system. Even

when a change of plans is made later, the advantage of having had some fixed thing for which to strive is not lost. But let me add, it is not sufficient for a pupil merely to register his wish to be fitted for this thing or that, much real, earnest effort needs to be put forth. I have in mind certain boys (not now in this school) who deliberately said that if they had got to study as much as some of their schoolmates, they preferred not to go to college. They knew all the time that their parents were ambitious to have them prepare for college.

It is difficult to explain what is meant by the atmosphere of a school or school spirit, but it is not too much to say that the change here in this respect for the better is evidenced by such things as the friendly relations existing now, almost universally, between pupils and teachers, and by the good behavior of the pupils at recess and in study rooms. The order in study rooms has certainly never been better in this school within the menonry of anyone now connected with it. Formerly it was a common thing for pupils to make humming noises and to cause disturbance in other ways which were difficult to detect, apparently for the sake of interfering with the work and annoying the teacher in charge. We have been practically free from this now for a considerable time. Furthermore, pupils have behaved well at ball games, at their dances, and on the closing days of the school year. Such matters may seem to be trifles but they are really important. It is in these and similar things that each person has an opportunity to help make the school a genuine success. For all the assistance rendered by pupils, teachers, and many others, the principal is truly grateful.

Respectfully submitted,

CHARLES H. NOYES,

Principal.

REPORT OF DIRECTOR OF MUSIC.

JAMES H. FASSETT, SUPERINTENDENT OF SCHOOLS:

Dear Sir:—

The director of Music respectfully submits his fourteenth annual report, and is grateful to the Superintendent of Schools, the corps of teachers, the Board of Education, and the Committee on Music, for the kind co-operation in advancing the study of music in the Public Schools of Nashua.

The only innovation in the study of music during the year has been the introduction of a course in harmony, theory and musical history, in the High school, for which credit is given the pupils on the basis of the other subjects taught. This course is confined to the Senior class, and fourteen have elected the subject. Two periods a week are devoted to the theoretical and history subjects and a third period is devoted to the study of choral music. The course was introduced in September, and thus far much interest has been manifested in the study.

This course has been added in order to prepare pupils who wish to take the exminations in Harvard, Yale, Princeton, Smith, Wellesley, and other colleges where credit is given in music. Many normal schools also require preparation in the subject, and those preparing for teachers are obliged to pass in this course. In this respect Nashua, with a few large cities, is a pioneer in this line of study.

The High School Choral class, 175 voices, gave the first concert of the Ninth Annual Music Festival last May, in City hall, in conjunction with the Nashua Oratorio society, with the assistance of the Boston Festival Orchestra soloists: Miss Josephine Knight of Boston, soprano; Miss Jeska Swartz of the Boston Opera Co., contralto; Mr. Lambert Murphy of New York, tenor, and Mr Reinald Werrenrath of New York, baritone. Like all its predeceors the

concert was given before a large and representative audience, and it was a musical success.

The High school has now in preparation the beautiful cantata "The Swan and the Skylark," composed by Goring-Thomas, and Max Bruch's dramatic cantata, "Fair Ellen", which will be sung at the tenth annual festival, at the Colonial theatre, May 18 and 19, with eminent New York and Boston soloists and the Boston Festival orchestra.

Our High school has attained the reputation of being the only high school in the country which has continued to study the masterpieces of musical literature and sing the same in public for a period of ten years. Many schools have made the experiment for a season or two and then dropped the idea for the reason that such enterprises are not self supporting. In Nashua we are fortunate to have the Oratorio society, which fosters the cultivation of the best music, and for this reason guarantees the financial side of the High school's part in the annual festivals. The good this work has done can easily be discerned by noting that several recent graduates of the High school are filling important choir positions in this city and in Boston, Manchester and several other New Hampshire cities.

From the Kindergartens to the Ninth grades, inclusive, the study of singing and musical theory is enthusiastically carried on as in the past. The books and the general outline of the course are the same as have been in use for a few years, and is eminently satisfactory.

Respectfully yours,

E. G. HOOD,

Director of Music.

Report of Director of Manual Training

Mr. J. H. Fassett, Superintendent of Schools,

Dear Sir:—

In compliance with your request, I submit the following report of the Manual Training Department from September 1910 to January 1911.

Soon after receiving notice of my election to the position as Director of Manual Training in the Nashua Public Schools, plans were drawn up for the necessary work previous to the opening of the department. The basement of the annex to the High School was equipped for the Manual Training Shop. In August black boards were insta'led, a double floor was laid, suitable lockers built to accomodate 250 pupils and electric lights installed. The contracts for the necessary benches, tools, machinery, lumber, furniture, and supplies were all given to local concerns. The shop was ready to receive the pupils the second week in September. A Manual Training program was arranged for all 7th, 8th and 9th grades, so that the morning session was divided into two periods 9:45 to 10:15 and 10:15 to 11:45. The afternoon period being two hours long from 1:45 to 3:45.

The nature of the work is similar to that taught in the most approved schools, with the exception of a few changes which were brought about by considering the local conditions.

The models that are finished are taken home by the pupils when completed, except those made for school purposes. As a rule the material is given to the pupils, but when a large project is made, then it is customary to require the pupil to pay for at least part of the stock. All work is given the necessary finish such as Wax, Shellac, Oil, Stain, etc., so that when the object leaves the building it is completed and ready for use.

As the boys of the various grades had never had the work before, the instructor was obliged to start them on projects which were very much of the same nature, but keeping in mind that a 9th grade boy both mentally and physically was capable of doing better work than the 7th grade pupil. This matter, however, will be taken care of in time as the different grades advance.

Efforts are not directed to the quantity of the work but rather to the quality, the boys keep in mind that it is far better to have a few projects executed well than to have a number showing careless work.

The pupils are very much interested in the work and have put in quite a little over-time. The shop is open after school two days a week, this gives the slower pupils an opportunity to receive more individual attention, and make up back work while the faster ones that show special talent, work on extra models.

The department is run on shop principles, a Time and Stock Card is kept by each pupil, for each object made. On this card he keeps record of the following items. Kinds of material used, amount of material used, cost per foot, number of hours spent on object, cost of hardware used, and total cost. The boys also receive a report card and are marked in the following subjects, Shop Attitude, Effort and Skill. These cards are distributed three times a year, at the close of each term. The pupils spent the first week in the shop working on Mechanical Drawings. The object was to acquaint them with blue prints so that they might be able in the future to work from their own drawnings, or from others handed to them. The drawings which pupils work from are run off on a duplicator, this being the most economical plan both from the point of time and expense. The subject of Drawing pertaining to Manual Training is a very important one and it should be arranged so that the pupils could receive the necessary instruction in this valuable subject.

In addition to teaching five days a week, the Director is conducting three classes in Manual Training for Teachers. The object of one of these classes is to acquaint the regular grade teacher with the necessary methods involved in the carrying out of the Knife work which they are teaching to their classes. Each and every model is made by the teacher, so that they can present the work in a clear and instructive manner. This class has enlarged since its opening and now not only contains sixth grade teachers, but a few lower grade teachers and Kindergarteners.

In response to a demand from the teachers a Manual Training Class was organized meeting every Saturday morning from ten to twelve o'clock. On account of the large number of teachers expressing a desire to join the above class it was decided to open a secong class, meeting every Wednesday afternoon at the close of school. At present there are 47 Teachers in the two classes. They are doing regular Normal School Work. The enthusiasm which they show is deserving of special mention.

If the Superintendent of Schools, The Board of Education, and the City Government wish the Manual Training Department to progress, it is absolutely necessary that a larger appropriation be made for the continuance and advancement of the work.

List showing the cost of the equipment and maintenance of Manual work in the schools up to Jan. 1, 1911.

High School Shop	Equipment	Maintenance
Floor Lockers and Elec. Lights	$315.70	
Tools and Machinary	951.05	$152.07
Amherst St.	12.50	6.25
Arlington St.	15.60	7.75
Mount Pleasant	15.85	7.95
Spring St.	26.25	19.80
Sewing		12.40
General		5.95
Salaries		450.00
	$1336.95	$662.17

Total expenditures up to Jan. 1, 1911	$1999.12
Number of Boys taking Shop Work	207
" " " " Elementary Work	108
Total number of Boys taking Manual Training	315
" " " Teachers " "	47

The Department of Sewing is under the Supervision of the Director of Sewing, but as its expenditures are taken from the Manual Training appropriation, only the figures pertaining to the maintenance of the Department are given.

ELEMENTARY MANUAL TRAINING.

The Manual Training course begins in the sixth grade. Here the boys commence whittling thin wood, the stock being given to the pupils the required thickness. The instruction is given by the regular grade teacher, who has charge of the Knife work while the girls are receiving their lesson in sewing. The time allotted is one lesson of sixty minutes each week. All though in the Amherst St. School the work takes place in the regular class room, in all other buildings where the instruction is given the work is carried on under more suitable conditions. At the Mt. Pleasant School the voting room is used, in the Spring St. Building the Chemical Laboratory, which was once used by the High School Students, makes an excellent workshop. At the Arlington St. School the large corridor is used.

An equipment consists of one Sloyd knife, rule, pencil, compass attachment trysquare and sandpapering block together with a few hammers, an oil stone, glue, etc.

The material used is 1-4" Bass wood, it is sent to the buildings sawed to proper size and planed on the broad faces. Such models are made as String-winders, Keyracks, Calendar Mounts, Minature Sleds, Easels, Card Boxes. Stationary holders, Ink Stands, Paper Knife, Picture frames, etc.

The teachers work from outlines furnished by the Director, explaining in detail just how the models are to be executed, and every pupil has a drawing which he works from. The method used in keeping the class together is to allow the faster pupils to spend their extra time working out simple designs for such models as Calendar Mounts, Stationary Holders, Ink Stands, etc.

Although the Director has been obliged to give the greater part of his time to the Bench work, he has made 57 visits of supervision to the various elementary classes.

The success of this work which is most decided is due to the fact that the sixth grade teachers have taken up the new work with the right spirit and their attitude towards the subject deserves special commendation.

RECOMMENDATIONS FOR THE EXTENSION OF MANUAL TRAINING IN THE PUBLIC SCHOOLS OF NASHUA.

At present there is no form of Manual Training taught in the High School. Pupils graduating have had no training whatever along industrial lines. This is a condition that exists in very few High Schools located in cities of over 20,000 or even 15,000 inhabitants. A number of the High Schools in New Hampshire have a four year course in Manual Training.

Without further discussion, I recommend.

1st. That this city introduce Manual Training into the curriculum of the High School.

2d. That closely related with Manual Training, a course in Mechanical Drawing be established. A thorough course in this subject is very essential.

3d. That the room between the Chemical Laboratory and the Lecture hall, once used by the Commercial Dept. and at present unoccupied, be used for a Mechanical Drawing Room.

This room could be fitted up at very little expense to the city as it already contains sufficient black boards, and locker space. The necessary T squares, and Drawing boards are being made by the present 9th grade Manual Training Class. The only expense would be the installing of three drawing tables of the design submitted by the Director, planned especially to meet the requirements and the furnishing of the necessary sets of instruments also ink and paper.

4th. That the Elementary Manual Training which is now being taught in every 6th grade in the city, be extended into the 5th grade.

5th. That the necessary equipments be installed in the Belvidere and Harbor Schools, the 5th grades in all other buildings could use the equipments which at present are being used by the 6th grades.

6th. That the Manual Training equipment in the High School be removed to the proposed new building which might be constructed on the Spring St. lot or better still that an eight or ten room building be erected on the ground at the corner of East Pearl and Quincy Sts., owned by the city and at present occupied by a barn and a small wooden building containing a Kindergarden class. A building on this lot could contain ample room to take care of the over-flow from the Spring St. School, and have rooms for sewing, cooking, wood-working, wood-turning, and drawing. This building being but a hundred yards from the High School, would be very convenient for the High School Students who should receive this valuable instruction. This same plan is carried on in a number of other cities with much success. All of the equipment in the High School is of such a nature that it can be readily removed to new quarters if this takes place.

In conclusion I wish to sincerely thank the Superintendent of School, The Board of Education Teachers, City Press and Citizens who have contributed to the advancement and success of the Manual Training Department.

Respectfully submitted,

ERNEST W. BECK.

REPORT OF DIRECTOR OF DRAWING.

JAMES H. FASSETT, SUPERINTENDENT OF SCHOOLS:—

Dear Sir:—

In making my report this year I wish to thank the Board of Education for their kindness in granting me leave of absence for the spring term of 1910. The leisure that it gave me enabled me to attend all of the sessions of the Eastern Art and Manual Training Teachers' Association which met in Boston. It made it possible for me to visit exhibitions of general art work, and a large number of schools in the vicinity of Boston.

The teaching of all subjects changes somewhat from time to time, but it seems to me that there has been a greater change during the last ten years in the way drawing is taught in the public schools than in any previous decade. Therefore I think it will prove a great help to me who have the responsibility of planning the course of study here to have been relieved of the actual teaching for a little while and to have had the opportunity to listen to the lectures and the informed talks of men and women who have won distinction as teachers of drawing and manual training.

The part of my work which is the most unsatisfactory to me is the teaching in the High School, and I hope that sometime I can make some changes there. It seems to be the accepted opinion that the object of the study drawing and art work generally should cease to have culture for its chief object. By the time the pupils reach the high school, therefore, I recommend that the mechanical drawing be taken over by the manual training department and in place of it I offer a cours for girls only in the designing of clothes. If possible a course should be offered for the same pupils by the sewing teacher, the two courses being planned to supplement each other. Work

which is very helpful to girls whether they become dressmakers or homemakers is being done along these lines in the Boston Trade School for Girls and in the High School of Practical Arts in Boston. While we could not expect to do work which would be on a par with theirs, such changes would be an improvement, and put the work of the High School on a much more practical basis.

Throughout the grammar and the primary schools the teachers are carrying on the drawing lessons with a gradually increasing efficiency. I thank them for their interest and faithfulness in doing the work, and I thank you and the Board of Education for your invariable kindness.

Respectfully submitted,

ELIZABETH L. BUCKINGHAM.

REPORT OF TEACHER OF SEWING.

Mr. James H. Fassett, Superintendent of Schools:—

Dear Sir:—

It will be remembered that the movement for Sewing in the schools had to a large extent its inception with the Nashaway Woman's Club, thereby receiving its introduction into the public schools of Nashua at the opening of the school year, September 1910.

The equipment was first purchased, each child receiving a large strong pasteboard box for unfinished work and a smaller box containing scissors, cotton, needles, pins, tape, and emery. Each box was labelled with its owner's name and all are stored in the regular class rooms in which the girls receive their instruction.

The course of work planned for the different grades was necessarily influenced by existing conditions.

The children in the four grades were allowed a stated amount of time each week for the work, to be lengthened as the general ideas and principles of the work were grasped and the interest thus increased.

Inasmuch as the older scholars were, because of physical and mental growth, better able to do more advanced sewing they were given work at once which called in play the co-ordination of muscles necessary to make fine adjustments.

The required stitches were taken up with the different grades in the approved order and applied to various articles. The sixth grades have completed their first model, namely, a flatiron holder cover with its accompanying practice piece or sample upon which the stitches involved were first learned. Following this, these grades are making a gingham apron bag with its sample constructed in such away as to form when completed, a doll's apron.

The seventh grades have finished chambrey work bags and the eighth and ninth grades have finished muslin aprons each with its accompanying sample. Following this work of the three higher grades, the making of undergarments is being taken up.

As progress in the course is shown and the children have spent two school years in acquiring the principles and practice in good handwork, the Grammar grades will be fitted for machine work. It doubtful will be advisable and to the advantage of the children to install machines at this time.

I sincerely thank you, Mr. Superintendent, the Board of Education, the Woman's Club, and the parents for their unwavering interest, helpfulness and support.

Respectfully submitted,

GLADYS BLODGETT.
